18. Do you think that e-commerce will dominate the international timber trade markets in the next ten years?

Yes  5  29%
No   12 71%

19. What timber related options on e-commerce services are you missing?

SEGURIDAD
You cannot "trade" in an on-line system. In the International timber trading world there is a lot of bargaining back and forth - which is part of the game - that will be lost here. So I am never actually sure if I have bought well enough.

transparecy at the e-commerce service companies itself.

Food for thought....but for now, e-commerce is not for us...
x
interesting topic
Good effort. Obviously, English is not your first language (mine either), but I felt I knew what you were asking me. Probably you could have gotten some good language/word choice tips from a native speaker of English. I felt a bit lead-along regarding accepting an agency for running the e-commerce side of our business. I would be fairly reluctant to hand that off to an outside co. or person. There is a lot at stake, namely the future of our business. all the best.
The purpose and intention was not very clear. A survey only works if it performs a task. This one seemed to be aimless in that it was too general in nature and did not expand on what it was trying to achieve.
Good
Good work! Keep thinking about these facts will help to structure the e-commerce in this market share... Thanks!
Something new. Looks promising. Time will tell
Thank you very much for your co-operation!
